

Since this system is entirely made up of Steel, it has an aesthetic look. The capillary pipe is made up of copper which is complaint-free as compared to other systems that use Al/GI capillary pipes. MG-Classic-2 also contains a steel tray which is used for mounting dead body. Almost all types of bodies can be accommodated inside this system since the dimension is of standard type. The whole body of the MG-Classic 2 is made up of mirror polished 304 steel which provide it an elegant look.
